Re: WT Docket No. 07-16 and WT Docket No. 07-30 – Notification of Oral Ex Parte Presentation

On August 13, 2007, John B. Muleta, CEO of M2Z Networks, Inc. and Michael Meece, Esq. had a telephone conversation with Erika Olsen, Legal Advisor to Chairman Kevin J. Martin. The discussion involved the status of M2Z's pending license application and forbearance petition and the detailed nature of the record before the Commission. Also discussed were the public interest benefits that will result following an analysis of the record and a grant of a license for M2Z to provide the National Broadband Radio Service. Ms. Olsen confirmed that an order denying M2Z's application and petition for forbearance was on circulation. She also confirmed that there was no notice of proposed rulemaking regarding the use of 2155-2175 MHz on circulation.

Please let me know if you have any questions regarding this submission.

Sincerely,

A handwritten signature in black ink, appearing to be 'Uzoma C. Onyeije', written over a horizontal line.
